

Universal A-Pillar active holder and charger for the TomTom series

TomTom used to produce the active holders and chargers for any model portable navigation unit. This kit consisted a support bracket and a TomTom specific holder and charger.

Since 2017 TomTom stopped developing these active holders for any TomTom portable navigation unit and is these days only applicable for the TomTom Go 520 World series and all the top models above. A new universal active holder and charger is been produced by Business4cars and is universally applicable for any type of vehicle.

- One unit suitable for any type of vehicle
- Active holder and charger for any TomTom series
- A-Pillar bracket with easy fix installation
- Input: 12-30V / Output: 5V—2.5A
